HSBC WARNS AGAINST PHISHING WEBSITE

The Hongkong and Shanghai Banking Corporation Limited would like to alert its customers about a phishing website falsely claiming to be from HSBC.

The website claimed to provide investment services, with various functions such as top-up, customer hotline, and market intelligence. Customers' login credentials, passwords, or personal information may be captured by clicking on these tabs.

Below is the screenshot (simplified Chinese only) and the link of the phishing website:

[hxxps\[://wapus\[.\]xyz](https://waxps[.]/wapus[.]xyz)

HSBC reminds customers that it has no connection to the phishing website. Customers should not enter sensitive personal information, chat with anyone, or open any links on the webpage. Similar phishing attempts may recur. HSBC reiterates that it will not send SMS or email messages with embedded links which direct customers to HSBC's websites or mobile apps for account login, banking transactions, or submitting sensitive personal information and credit card details.

Customers are reminded to ensure they are connected to a valid HSBC site. The Bank's Hong Kong domain is <https://www.hsbc.com.hk>. Customers should access banking services by typing this address into the browser search bar.

If customers are concerned, they should call the HSBC Personal Customer service hotline at 2233 3000 and report to the Police. “Scameter”, the government’s scam and pitfall search engine, is also available to help identify potential frauds.
